TECHNICAL SKILLS

Programming Languages | JavaScript ES6+, Python 3, TypeScript, PHP, SQL, HTML5, CSS

Front-End | React, React Hooks, Next.js, Tailwind CSS, Bootstrap

Back-End | Django 4, PostgreSQL, MongoDB, FastAPI

System Design | Monoliths, Microservices, Domain-driven design

APPLICATION DEVELOPMENT EXPERIENCE

Whimzee | Full Stack Developer | <https://whimz.gitlab.io> | *React, FastAPI, PostgreSQL, Tailwind CSS* 2023

A user-friendly e-commerce website for users of two types - buyers and sellers.

- Designed and implemented a **PostgreSQL** database schema for Whimzee, ensuring proper organization and structure for storing all data
- Created user-friendly forms and interfaces using **React**, enabling users to easily create, edit, and delete listings with a seamless user experience
- Used **Tailwind CSS** to create custom and consistent styles, ensuring a visually cohesive and modern design throughout the website

DeckDex | Full Stack Developer | github.com/DeckDex | *TypeScript, React, Next.js, PostgreSQL* 2023

A deck-building application for the Pokemon Trading Card Game.

- Integrated third-party **APIs** to provide up-to-date information on Pokemon TCG cards
- Designed intuitive user interfaces using **React** to facilitate deck CRUD operations
- Implemented user authentication using **NextAuth.js** allowing added functionality to logged in users

CarCar | Full Stack Developer | github.com/carcar | *Django, React, Bootstrap* 2023

An application for managing aspects of an automobile dealership— its inventory, service center, and sales.

- Designed and implemented **RESTful APIs** for the application's front-end to consume, using **Django REST Framework**
- Used **React** to create a modern and responsive front-end, delivering a user-friendly and engaging experience for users
- Utilized **Bootstrap** to ensure a visually appealing and cohesive design throughout the application

PROFESSIONAL EXPERIENCE

Squires Lumber Co. | Inventory Controller 2021-2022

- Reduced inventory discrepancies by 40% within the first three months by identifying and addressing root causes, such as miscounts, data entry errors, and theft
- Used inventory data to identify overstocked and understocked items, resulting in a 15% reduction in excess inventory and a 20% increase in on-time deliveries

RS Construction & Development, Inc. | Executive Assistant - Contract 2020-2020

- Contracted to assist in the launch of the company, establishing policies and procedures, streamlining safety protocols through the creation of reusable safety meetings, and implementing an efficient filing system.
- Created and presented engaging safety meetings for construction workers to promote compliance and awareness of safety regulations, resulting in a 25% reduction in on-site accidents

EDUCATION

Hack Reactor | Advanced Software Engineering Certificate 2023

California State University Channel Islands | BS in Business 2019
